## SAMPLE QUESTIONS: C\_BOBIP\_41

SAP Certified Application Associate - SAP BusinessObjects Business Intelligence Platform 4.1

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

### Questions

1. What metrics are measured as default probes in the monitoring application?

Please choose the correct answer.

a)	<input type="radio"/>	Application metrics that monitor indicators such as the number of user connections.
b)	<input type="radio"/>	System metrics that indicate the success of a certain task, for example, CMS ping.
