What kind of Learning Experiences does SAP offer?

**E-Learning**
- Provides interactive web-based materials that you can use at your own pace.
- E-Learning can contain text, videos, demos, simulations, and other media. It can be used for regular courses, Early Knowledge Transfer, or other purposes. In some cases, an electronic E-book is available.

**Learning Rooms**
- Are online social environments where you can build and expand your SAP skills with informal social learning and curated learning content.
- SAP Learning Rooms are delivered through the SAP Learning Hub and include all the content needed to achieve specific learning goals.

**SAP Live Access**
- Lets you get hands-on experience with a live, fully supported, and private SAP system that is pre-configured with the data you need to complete the exercises in SAP Learning Hub classes and free explorations.
- Available to SAP Learning Hub subscribers in fixed-hour plans.

**openSAP courses**
- Are free, open, online courses on SAP's latest innovations.
- Courses consist of videos, self-tests, discussion forums, weekly assignments, and a final exam. Upon successful completion of an open SAP course, you can earn a Record of Achievement (online certification).
- After a course closes, all learning content remains available for consumption in self-paced mode.

**Face-to-Face & Virtual Classroom Learning**
- Offer the traditional instructor-led training experience.
- Instructors and learners meet at a training site or, in the case of Virtual Live Classrooms (VLC), they connect over the web to participate in a comprehensive training and hands-on learning experience.

**Academies / eAcademies**
- Are bundles of learning offerings that cover the content of multiple classroom or E-Learning courses together.
- Often, these integrated offerings cluster together most of what is needed to be ready for a certification exam. They can also facilitate the uniformity of training projects.

**Certifications**
- Are exams of different lengths and types, validating specific levels of competence with SAP solution knowledge and skills, such as Associate, Specialist, or Professional.
- Certification exams can be taken worldwide at physical and virtual locations. Some certifications are available as a subscription through the Certification Hub.
