BOW320 - SAP BusinessObjects Web Intelligence 4.3: Report Design II

Course announcements

- This 2-day course is designed to enhance and advance your Web Intelligence skills. You will learn advanced query techniques, including subqueries, combined queries and synchronizing retrieval from multiple data sources. You will also learn how to manipulate calculation contexts, to create complex formulas (with nested functions and IF logic), as well as implementing other useful reporting features, such as tracking changes in data and linking options.

Goals

- This course will prepare you to:
- Create complex Web Intelligence documents using advanced query and reporting techniques, including:
- Synchronizing Data
- Combined queries and subqueries
- Calculation Contexts
- Character and date string functions
- Group functions
- Element Linking
- Managing hyperlinks

Audience

- Application Consultant
- Business Analyst
- Business Process Owner / Team Lead / Power User

Essential

- BOW310 SAP BusinessObjects Web Intelligence 4.3: Report Design I

Course based on software release

- SAP BusinessObjects BI 4.3 SP 2

Content

- Implementing Subqueries
- Changing Data Sources
- Accessing Excel as a Data Source
- Using a Web Intelligence Document as a Data Source
- Implementing Combined Queries
- Multiple Data Sources
- Synchronizing Data
- Calculation Contexts
- Formulas with Character Functions
- Implementing Date Functions
- Grouping Data and Using If Logic
- Additional Reporting Techniques
- Element Linking
- Managing Hyperlinks in Web Intelligence
- Additional Reporting Techniques

BOW310 - SAP BusinessObjects Web Intelligence 4.3: Report Design I

Course announcements

- This 2-day course is designed to give you the skills needed to access, analyze and share information using SAP BusinessObjects Web Intelligence. You will learn how to create Web Intelligence documents for reporting and analytical purposes: to retrieve data by building queries using SAP BusinessObjects universes, to restrict data with query filters, to display and format data in tables and charts. You'll also learn how to organize, manage and distribute documents in the BI Launch Pad.

Goals

- This course will prepare you to:
- Explain Web Intelligence concepts
- Interact with documents in reading mode
- Identify Data Sources for Web Intelligence
- Restrict data using query filters
- Display data in tables and charts
- Enhance documents using breaks and sections
- Format data in tables and charts
- Create and use simple formulas and variables
- Build a drillable document

Audience

- Application Consultant
- Business Analyst
- Business User
- Business Process Owner / Team Lead / Power User
- End User

Essential

- None

Course based on software release

- SAP BusinessObjects Web Intelligence 4.3 SP 2
