AR110 - SAP Ariba Sourcing – Creating Events

Course announcements

- This course introduces you to the basic functionality of SAP Ariba Sourcing. Through a combination of lecture, demonstrations, and lab exercises, students learn about the various types of sourcing events. This one day course covers template selection, setting event rules, monitoring, and awarding sourcing events. Students perform hands-on lab exercises that include creating, publishing, monitoring, and completing a sourcing event.

Goals

- This course will prepare you to:
- Explain the differences and benefits of sourcing events: RFI, RFP, Auction, Forward Auction
- Navigate and Customize the Dashboard
- Create a sourcing event
- Use the sourcing library to add event content
- Bid as a supplier and monitor supplier responses
- Evaluate sourcing event responses
- Award a sourcing event

Audience

- Application Consultant
- Business Analyst
- Business Process Owner / Team Lead / Power User
- Technology Consultant
- Trainer
- User

Essential

- None

Course based on software release

- SAP Ariba Strategic Sourcing

Content

- Introduction
- Application Orientation
- Create a Sourcing Event (Rules, Team, Suppliers)
- Create a Sourcing Event (Content, Summary)
- Monitor a Sourcing Event
- Evaluate and Award a Sourcing Event

AR121 - SAP Ariba Sourcing: Advanced Features Part 2

Course announcements

- In this course, students learn advanced functionality of the Ariba Sourcing solution. Students will learn how to enable suppliers to provide alternate bids in events; how to create events with total cost and other pricing options; how to use the optimization tool for advanced bid analysis, how to create events suited for a global supply base; when to use sealed envelopes and how to search the system for events, and finally how to download event level reports.

Goals

- This course will prepare you to:

- Allow suppliers to provide alternate bid responses including alternate terms, volume pricing, and bundles
- Create events with Total Cost formulas
- Use the award optimization tool to evaluate bid responses
- Prepare events for a global audience using translations and multiple currencies
- Explain sealed envelope bidding
- Create a saved search and download event reports

Audience

- Application Consultant
- Business Analyst
- Business Process Owner / Team Lead / Power User
- Technology Consultant
- Trainer
- User

Essential

- AR110, AR111

AR120 - SAP Ariba Sourcing: Advanced Features Part 1

Course announcements

- In this course, students learn advanced functionality of the Ariba Sourcing solution. Students will learn about: event templates and rules that govern event functionality; sourcing library features, how to apply visibility conditions to content, methods of scoring to evaluate suppliers responses; and various ways to use MS Excel to create events; how to create custom offline bid sheets and large capacity events.

Goals

- This course will prepare you to:
- Use event templates and rules to create different events
- Use the sourcing library to store and copy event content
- Create visibility conditions to hide event content until participants responses meet the conditions
- Use Scoring: Pre-grading, post-grading, and blind grading to evaluate supplier responses
- Use Excel to create and copy events, create supplier responses and prepare custom spreadsheets to be used for bidding
- Create Large Events

Audience

- Application Consultant
- Business Analyst
- Business Process Owner / Team Lead / Power User
- Technology Consultant
- Trainer
- User

Essential

- AR110, AR111
