

Courses Listed

Intermediate

- SAPTEC - Technology Fundamentals of SAP S/4HANA and SAP Business Suite

Advanced

- ADM100 - System Administration I of SAP S/4HANA and SAP Business Suite
- ADM103 - System Administration II of SAP S/4HANA and SAP Business Suite
- ADM110 - Installing and Updating SAP S/4HANA and SAP Business Suite Systems
- ADM325 - Software Logistics of SAP S/4HANA and SAP Business Suite
- ADM328 - SAP S/4HANA Conversion and SAP System Upgrade
- ADM415 - SAP S/4HANA – Performance Analysis
- ADM940 - Authorization Concept for SAP S/4HANA and SAP Business Suite
- ADM945 - Authorization Concept for SAP Fiori on SAP S/4HANA
- HA200 - SAP HANA Installing and administering
- HA201 - SAP HANA High Availability and Disaster Tolerance Administration
- HA215 - SAP HANA Using Monitoring and Performance Tools

All available schedules in your selection

ADM325 Software Logistics of SAP S/4HANA and SAP Business Suite

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM110 Installing and Updating SAP S/4HANA and SAP Business Suite Systems

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM328 SAP S/4HANA Conversion and SAP System Upgrade

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

HA201 SAP HANA High Availability and Disaster Tolerance Administration

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM415 SAP S/4HANA – Performance Analysis

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM103 System Administration II of SAP S/4HANA and SAP Business Suite

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

HA215 SAP HANA Using Monitoring and Performance Tools

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

HA200 SAP HANA Installing and administering

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM940 Authorization Concept for SAP S/4HANA and SAP Business Suite

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM100 System Administration I of SAP S/4HANA and SAP Business Suite

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM945 Authorization Concept for SAP Fiori on SAP S/4HANA

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

SAPTEC Technology Fundamentals of SAP S/4HANA and SAP Business Suite

There are currently no events available for this course. Please feel free to register interest for this course on SAP Training. We will then notify you when a course has been scheduled.

ADM325 - Software Logistics of SAP S/4HANA and SAP Business Suite

Notes

- This course is suited for AS ABAP-based SAP S/4HANA and SAP Business Suite systems, such as SAP S/4HANA Server, and SAP ECC.
- We recommend that you attend this course as soon as possible after the initial installation of your SAP systems.

ADM110 - Installing and Updating SAP S/4HANA and SAP Business Suite Systems

Notes

- In this course you will learn how to install different SAP systems, including technical pre- and post-installation steps. As examples for the different types of SAP systems you will install an SAP S/4HANA Server system including the SAP HANA database, and an SAP Solution Manager system. These SAP systems will be installed on different operating systems (Linux and Windows) using different databases (SAP HANA DB and SAP MaxDB).
- After successfully attending ADM110, you should also be capable of installing SAP ECC systems – and other SAP systems – on different operating systems and databases.

ADM328 - SAP S/4HANA Conversion and SAP System Upgrade

Notes

- The goal of this course is the preparing and performing of an SAP S/4HANA conversion of an SAP ECC system from a system administrator point of view. The course is also suitable for upgrades of SAP S/4HANA Server systems.
- The participants really perform an SAP S/4HANA conversion themselves on a dedicated training system.
- The procedure performed in this course contains typical error situations and modification adjustments (SPDD and SPAU).
- This course ADM328 also covers most of the content of course HA250 – Database Migration using DMO.

HA201 - SAP HANA High Availability and Disaster Tolerance Administration

Notes

- In case you need to "deep dive" on specific subjects, this course can be coherently combined with the other courses in the SAP HANA curriculum, for example HA215 for SAP HANA monitoring and performance tools, and HA250 for database migration.

ADM415 - SAP S/4HANA – Performance Analysis

Notes

- In this training you will gain competencies that can be applied to all AS ABAP-based SAP systems in general. Most of those competencies can be applied on SAP systems using earlier versions of AS ABAP as well.

ADM103 - System Administration II of SAP S/4HANA and SAP Business Suite

Notes

- Following on from ADM100 (System Administration I of SAP S/4HANA and SAP Business Suite), this course provides additional training on AS ABAP for SAP system administrators.
- About half of this course covers technology components for HTTP-based communication.

HA215 - SAP HANA Using Monitoring and Performance Tools

Notes

- In case you need to "deep-dive" on specific subjects, this course can be coherently combined with the other courses in the SAP HANA curriculum, for example HA201 for high availability and disaster tolerance, and HA250 for database migration.

HA200 - SAP HANA Installing and administering

Notes

- In case you need to "deep dive" on specific subjects, this course can be coherently combined with the other courses in the SAP HANA Curriculum, for example HA201 for high availability and disaster tolerance, HA215 for SAP HANA monitoring and performance tools, and HA250 for database migration.

ADM940 - Authorization Concept for SAP S/4HANA and SAP Business Suite

Notes

- A fundamental knowledge of the SAP environment is essential for this course.
- To learn more about authorizations in SAP S/4HANA, participants should also attend the course ADM945 - Authorization Concept for SAP Fiori on SAP S/4HANA

ADM100 - System Administration I of SAP S/4HANA and SAP Business Suite

ADM945 - Authorization Concept for SAP Fiori on SAP S/4HANA
