- No practice system is required for this course.

ACT100 - SAP Activate Methodology

Course announcements

- ACT100 is designed to give participants an introduction to the implementation framework of SAP Activate. The course discusses the methodology component of SAP Activate in detail, including key deliverables in the context of different project journeys from cloud- based models, RISE with SAP and possible transition paths. Participants will also receive an introduction into SAP Cloud ALM and learn about the role of SAP Signavio in transformation projects.

Goals

- This course will prepare you to:
- Work within an S/4HANA implementation project
- Attempt the SAP Associate Project Manager certification

Audience

- Application Consultant
- Business Process Owner / Team Lead / Power User
- Program/Project Manager

Essential

- Basic understanding of SAP Best Practice concepts
- Basic understanding of SAP configuration concepts

Course based on software release

- N/A

Content

- Introduction to SAP Activate
- SAP Activate Overview
- SAP Activate Elements
- Workstreams in Detail for Cloud and On-Premise implementations

- SAP Signavio to Support s/4HANA transformations
- Transition Paths

Notes

- The intention of the course is to gain an understanding of the foundations of the SAP Activate implementation framework, and especially the methodology component.
- In ACT100, you learn the specific details that apply to an S/4HANA implementation, leveraging SAP Signavio and SAP Cloud ALM. No training system is needed for this training.
